1. The Statement above summarizes by broad categories the estimates of capital receipts - both non-debt and debt receipts. Further, details together with brief notes explaining the variations between Budget Estimates and Revised Estimates for 2011-12 and between Revised Estimates for 2011-12 and Budget Estimates for 2012-13 as given in the notes below.

1.01.. Recoveries from State Governments: Receipts from State Governments are estimated at ₹ 8247.00 crore in RE 2011-12 and ₹ 8418.00 crore in BE 2012-13. The receipts in RE 2011-12 include waiver of loans to State Governments which are matched by equivalent expenditure.

1.02.. Recoveries from Union Territories (with Legislature): The recoveries are in respect of loans advanced to the Union Territory of Puducherry and NCT of Delhi.

1.03&1.04.. Repayment by Others: These include loan repayments by parties other than States and Union Territory Governments, viz. foreign Governments, industrial and commercial enterprises and financial institutions in the public sector, municipalities, port trusts, private sector companies and institutions, cooperatives etc.

2. MISCELLANEOUS CAPITAL RECEIPTS: In RE 2011-12, proceeds of ₹13144.55 crore on account of disinvestment of part of government equity in Central Public Sector Eterprises (CPSEs) in Oil and Natural Gas Corporation Limited have been estimated. Government has constituted a 'National Investment Fund' (NIF) into which the proceeds from disinvestment of Government equity in selected CPSEs is channelized. The funds so credited to NIF will be withdrawn and used for part funding the Social Sector schemes namely, Mahatma Gandhi National Rural Empolyment Guarantee Scheme , Jawaharlal Nehru National Urban Renewal Mission and Accelerated Irrigation Benefits Programme as grants in aid for creation of capital assests. This arrangement has been continued in 2012-13. In BE 2012-13 disinvestment proceeds have been estimated at ₹30000 crore through disinvestment of part of equity in various CPSEs.

3.01. MARKET LOANS: Government of India raises its market loans under the Scheme of Sale of Dated Government Securities by Auction from 1992-93. These auctions are conducted by the Reserve Bank of India, as debt manager to the Central Government. Apart from Fixed Coupon Securities, Government has also issued Floating Rate Bonds (FRB) on which the coupon rate, payable semi annually, are reset semi-annually by adding a 'spread', determined through auction.Since 2002-03, Central Government has been announcing half-yearly Indicative Market Borrowing Calendar based on its core borrowing requirements. The Revised Estimate of net market borrowing of Central Government through issue of dated securities is ₹436413.81 crore. Taking into account the repayments amounting to ₹73586.19 crore, RE of gross market borrowing is fixed at ₹510000.00crore.The net market borrowing of the Central Government through issue of dated securities in 2012-13 is estimated to be ₹ 479000.00 crore. Gross market borrowing in BE 2012-13 is placed at ₹ 569615.94 crore, taking into account scheduled repayment of ₹90615.94 crore. Details of repayments in 2011-12 are given in Annex-6.

Conversion of Special Securities/Recapitalisation Bonds: Government of India has completed the conversion of special securities issued in lieu of ad hoc treasury bills into marketable securities during the year 2003-04. Details of the marketable securities issued in conversion are given in Annex-6A. Government of India has also completed the conversion of Recapitalisation Bonds with the Nationalised Banks into SLR marketable securities during the year 2007-08 (details in Annex 6B).

3.02.. SHORT TERM BORROWINGS (364/182/91 DAYS TREASURY BILLS): The Treasury bills offer short-term investment opportunity to financial institutions, banks, etc. Primarily, these are issued under the normal auction programme of the Government and also provide option for non-competitive bids. The amount for weekly auction of 91-days treasury bill and fortnightly auction of 182-days and 364-days treasury bills is notified in indicative quarterly calendar. Central Government also issues 14 days Intermediate Treasury Bills for deployment of short term cash surpluses by State Governments.

3.02.05..Cash Management Bills: Cash Management Bills are issued to meet the temporary cash flow mismatches of the Government. The Cash Management Bills are a non-standard, discounted instruments issued for maturities less than 91 days, and are issued when necessary.

4. NATIONAL SMALL SAVINGS FUND Small Savings Schemes: The small savings schemes currently in force are : Post Office Savings Account, Post Office Time Deposits (1, 2, 3 & 5 years), Post Office Recurring Deposit, Post Office Monthly Income Account, Senior Citizens Savings Scheme, 5 Years National Savings Certificate (VIII-Issue),10 Years National Savings Certificate (IX-Issue) and Public Provident Fund.

4.01. Securities issued against Small Savings: Collections under various small saving schemes, net of withdrawals, during the financial year form the sources of fund for National Small Savings Fund (NSSF). The net collection is invested in Central and State Government Securities, which forms the application of funds under NSSF. Presently, the term of Central and State Government Securities is 25 years, with 5 year moratorium at 9.5 per cent interest rate. The State share is 80 per cent or 100 per cent of net collection within that State, as the State may opt. Redemption of these securities into NSSF is reinvested in 20 years Central Government Securities at average G-Sec rates.

As per the recommendation of Thirteenth Finance Commission (FC-XIII), the interest rate on loans to States contracted till 2006-07 and outstanding as at the end of 2009-10, is being reset at 9 per cent for the financial years 2010-11 and 2011-12 from the dates the FRBM Act is amended/enacted by the States, in accordance with the recommendations of the FC-XIII.

From 2012-13 onwards, the States will be eligible for provisional relief, based on compliance with the fiscal targets in their respective FRBM Acts, as reflected in their Budget Estimates. If a State, after getting the interest relief, breaches the FRBM in Actuals (as per Finance Accounts), the benefit of reduced interest on NSSF loans will be withdrawn and the earlier interest rate will become applicable. This excess interest relief availed by the State shall be recovered in the next year. The State may revert to 9 per cent interest rate as and when it again complies with its FRBMA targets.

The Committee set up for Comprehensive Review of NSSF, pursuant to the recommendations of the Thirteenth Finance Commission, had inter-alia made several recommendations on investments from NSSF. Accordingly, the following modifications are being made in the investments from NSSF :-

(i) The minimum share of States in net small savings collections in a year, for investment in State Governments Securities, will be reduced from 80 per cent to 50 per cent. The remaining amount will be invested in Central Government securities or lent to other willing States or in securities issued by infrastructure companies/agencies, wholly owned by Central Government.

(ii) Yearly repayment of NSSF loans made by Centre and States, will be reinvested in Central and State Government securities in the ratio of 50:50.

(iii) The period of repayment of NSSF loans by Centre and States will be reduced to 10 years, with no moratorium.

(iv) For the financial year 2011-12, the prevailing interest rate of 9.5 per cent will continue. From 1st April, 2012 revised interest rate will be notified.

(v) Half yearly payment of interest by the Centre and the States will be introduced.

(vi) Interest rate on existing investments from NSSF in Central Government securities till 2006-07 will be re-set at 9 per cent and on those from 2007-08 till 2010-11 will be re-set at 9.5 per cent.

(vii) A Monitoring Group drawn from Ministry of Finance, Reserve Bank of India, Department of Posts, State Bank of India, other selected banks and selected State Governments will be set up to resolve various operational issues like reducing the time lag between collection and investment, etc.

Interest payment to subscribers and cost of management constitute the expenditure under the fund and interest on Central and State Government Securities forms the income of the fund.

The sources and applications of NSSF are shown in Annexure 7A and details of various components of NSSF are shown in Annexure 7B.

6.02. 8% Savings (Taxable) Bonds, 2003: 8% Savings (Taxable) Bonds, 2003 were introduced w.e.f. 21st April, 2003 to enable resident citizens/charitable institutions/ Universities etc. to invest their savings in taxable bonds without any monetary ceilings. The bonds will have maturity of six years carrying interest at 8 percent per annum payable half yearly. Both cumulative and non-cumulative options are available. The bonds are not transferable. They are also not tradable in the secondary market. However, from August 19, 2008, they are eligible as collateral security for loans from scheduled banks.

6.03. 6.5% Savings (Non-taxable) Bonds, 2003: 6.5% Savings (Non-taxable) Bonds, 2003 were introduced with effect from 24th March, 2003 to enable resident citizens to invest their savings in tax-free bonds without any monetary ceilings. The Scheme has been discontinued with effect from close of business on July 9, 2004. These Saving Bonds are due for redemption and started maturing for repayment w. e. f. March 24, 2008

6.04.. Issue of Special Securities to the Department of Post: Issue of Special Securites to the Department of Post by converting of frozen corpus of Post Office Life Insurance Fund (POLIF) and Rural Post Office Life Insurance Fund (RPOLIF)

6.05. Other Receipts (Public account other than State Provident Fund): Railway Reserve Funds:

A snapshot of the Railway Reserve Funds may be seen at Annex -14. The details of each of them is as follows:

(a) Railway Pension Fund: It is intended to meet the pensionary charges of Railway employees. Suitable amounts are transferred annually to the Fund by debit to revenue and capital expenditure heads. The pensionary charges are initially met as part of revenue head and later recouped from the Fund. Credit to the Fund during the year 2011-12 is estimated at ₹17113.02 crore, including ₹3.02 crore by way of interest payable by the General Revenues on the balance in the Fund. The withdrawal is estimated at ₹17000 crore. During 2012-13, credit is estimated at ₹18823.67crore, including ₹13.67 crore on account of interest. As against this, the withdrawal is estimated at ₹18500 crore.

(b) Railway Depreciation Reserve Fund: provides for replacement and renewal of assets including the improvement element.Contribution to the Fund is estimated at ₹6360.94 crore in RE 2011-12, which is inclusive of ₹0.94 crore of interest payable by General Revenues on the balance in the Fund. The outgo from the Fund has been estimated at ₹6360.13 crore in 2011-12. For BE 2012-13, credit is estimated at ₹9710.99 crore including ₹10.99 crore on account of interest. Withdrawal is estimated at ₹9300.00 crore.

(c) Railway Development Fund: This Fund, set up in 1950, is used for meeting expenditure on passengers and users' amenities, labour welfare works, unremunerative operating improvements and safety works. The Fund is financed by appropriation of such portion of the Railway excess, if any, as may be fixed by the Government and voted by Parliament. If the accumulated balance in the Fund, after transfer from the railway excess to it, is not enough to meet the expenditure to be financed from the Fund, interest bearing loans are taken from the General Revenues for credit to the Fund. During 2011-12, the Fund openedwith a negative balance of ₹1213.35 crore. Ministry of Finance extended a loan of ₹3,000 crore for the Development Fund. Taking this and the appropriation of ₹550 crore made from Revenue into account, the credit to the Railway Development Fund has been estimated at ₹3551.27 crore, which also includes ₹1.27 crore as interest payable by the General Revenues on the balance in the Fund. Withdrawal from the Fund during 2011-12 has been estimated at ₹2078.51 crore. Credit to the Fund during 2012-13 is placed at ₹10713.38 crore including ₹156.38 crore on account of interest. The withdrawal during 2012-13 is estimated at ₹ 6903.25 crore for works chargeable to the Fund and full repayment of the loan taken for this Fund in 2011-12 and interest thereon.

(d) Railway Capital Fund: was created in 1992-93 to enable the Railways to utilise a part of the internally generated resources for building up the infrastructure of the Railways. In case of shortfall of Railway revenues in financing the Capital Fund, interest bearing loan is taken from the General Revenues for credit to the Fund. Credit to the Fund in 2011-12 is estimated at ₹ 924.45 crore, including ₹0.30 crore representing the interest earned on the Fund balance, whereas the outgo from the Fund has been estimated at ₹ 44.29 crore representing interest payable to the General Exchequer on the negative balance in the Fund as on 31.03.2011. In 2012-13, this Fund will be credited with ₹ 5002.75 crore including ₹ 2.75 crore of interest estimated to accrue on the balance in the Fund, whereas withdrawal is estimated at ₹ 4915 crore.

(e) Railway Safety Fund: has been created from 1.4.2001 for financing safety works relating to conversion of unmanned level crossings and for construction of Railway Over/Under Bridges at busy level crossings. The Fund is mainly financed through transfer of funds by the Government from the Central Road Fund and the contribution hitherto being made to the Railway Safety Works Fund out of the dividend being paid to the General Revenues. This is a non-interest bearing Fund. Credit to the Fund during 2011-12 is placed at ₹1062.17 crore. The withdrawal is estimated at ₹1656.60 crore. The credit during 2012-13 is estimated at ₹1105.06 crore and the withdrawal is estimated at ₹2000.00 crore.

6.06.. International Financial Institutions: The estimates relating to (a) special securities issued towards India's subscriptions/contributions to International Financial Institutions and (b) certain transactions involving use of Special Drawing Rights (SDRs) are reflected. The details of each of the IFIs are as below:

6.06.01..International Monetary Fund: IMF member countries including India are required to pay for their quota shares as follows: 75% in encashable non-interest bearing securities issued by the member country (Gol in India's case) and 25% in cash (denominated in SDRs or hard currency). Payment of India's quota increase relating to the 2008 Review of Quotas was made on march 31,2011. Accordingly, 75% was paid for by non-interest bearing securities, amounting to INR 8467 crore and remaining the 25% in cash, amounting to INR 2860.1 crore.

Similarly, the quota increase payment relating to the 2010 review of Quotas is expected to be paid in next financial year 2012-13. The total amount of payment towards the increase in India's quota, which is expected to be made in financial year 2012-13 would be INR 56000 crore (SDR 7292.9 million) at the prevailing exchange rate. Accordingly, 75% of this amount or INR 42000 crore would be made through securities and the balance in cash (SDRs/Hard currency).

The estimates relating to special securities issued towards India's subscriptions to IMF and certain transactions involving use of Special Drawing Rights (SDRs) are towards partly subscribing to India's quota increase at IMF; towards

Maintenance of Value (MoV) obligations; and towards purchase transactions under the Financial Transaction Plan (FTP). Under the MoV provision of the IMF's Article of Agreement, the value of the currencies of members held in the General Resources Account is required to be maintained in terms of the SDRs and an adjustment in the Fund's holdings of a member country's currency pursuant to this provision is made every year.

India is a participant in the SDR allocation of the IMF. The SDRs are used in transactions such as payment of charges and discharge of repurchase obligations including payment of additional subscription. Purchase and repurchase transactions under FTP are debited / credited to the head 'special drawing rights' in the public account. Payments made to IMF in the form of SDR's are debited to the relevant expenditure head per contra credit to this head. Similarly receipts realized in the form of SDRs are credited to the relevant receipt heads by contra debit to this head.

Fresh SDR Allocations: Since 1981, the Net Cumulative Allocation (NCA) of SDRs to India had remained at SDRs 681.2 million. However, a general allocation of SDRs equivalent to about US\$250 billion was made by IMF to its member countries in proportion to their existing quotas in the IMF on August 28, 2009. As a result, India has been allocated a total of SDR 3,082.5 million.

Additionally, the 4th Amendment to the IMF Articles of Agreement (providing for a special one-time allocation of SDRs) was approved and accordingly the special allocation was made by IMF to its members on September 9, 2009. As a result, India has been allocated a total of SDR 214.6 million. Thus, during the year 2009-10, India has been allocated a total of SDR 3,297.1 million (SDR 3082.5 million plus SDR 214.6 million).

Consequently, the Net Cumulative Allocation (NCA) of SDR by IMF to India now stands at SDR 3,978.26 million. Out of this NCA of SDR 3,978.26 million, India, as on 31st December 2012, is currently holding SDR 2889.84 million which is 72.52% of its NCA.

6.06.02.. International Bank for Reconstruction and Development (IBRD): With the conversion of maintenance of value (MOV) obligation into Special Dollar Denomination securities, no provision is required to be made in RE 2011-12 and BE 2012-13.

6.06.03.. International Development Association (IDA): No payment to IDA is envisaged in RE 2011-12 and BE 2012-13.

6.06.04. Asian Development Bank(ADB): The Asian Development Bank keeps Rupee securities with the Reserve Bank of India which can be encashed by it to meet its rupee expenditure in India from time to time. A provision of ₹21.70 crore was made in BE 2011-12. RE 2011-12 and BE 2012-13 has been kept at ₹31.50 crore and ₹31.50 crore respectively.

6.06.05. African Development Fund (AFDF) and African Development Bank (AFDB): AFDF and AfDB have been set up with the main objective of furthering the economic and social development of the region by providing financial assistance on soft terms. India has joined both the Fund and the Bank in order to develop closer economic co-operation with the African countries.

7. EXTERNAL LOAN: Budget 2012-13 assumes a gross receipt of ₹ 26047.94 crore and repayment of ₹ 15899.74 crore, resulting in net external loan of ₹ 10148.20 crore. Further details are given in Capital Receipts section of this document.

7.01.. Multilateral Agencies: The net receipts estimated for BE 2012-13 from International Monetary Fund, International Bank for Reconstruction and Development, International Development Association, International Fund for Agricultural Development, Asian Development Bank, Eastern European Community(SAC) and Organisation of the Petroleum Exporting Countries is ₹ 7632.37 crore. Agency wise details are available in Annex-9(External Assistance) of this document.

7.02.. Bilateral Agencies: The net receipts estimated for BE 2012-13 from Japan, Germany, France, Italy, Switzeland, USA and Russian Federation is ₹ 2515.83 crore. Agency wise details are available in Annex-9(External Assistance) of this document.

9. MARKET STABILISATION SCHEME: The Memorandum of Understanding (MoU) relating to MSS has been amended to enable, on mutual agreement between the Government of India and the Reserve Bank of India, the transfer of a part of the amount in the MSS cash account to the normal cash account as part of the Government's market borrowing programme for meeting Government's approved expenditure. An equivalent amount of Government securities issued under the MSS would form part of the normal market borrowing of the Government of India. Net receipts under MSS in 2012-13 is estimated at ₹ 20,000 crore.
