

ECONOMIC SURVEY
1963-64

SELECTED ECONOMIC INDICATORS

PREFACE

It has been customary in the past to present the Economic Survey along with the Budget papers. Since the Survey deals with economic developments in the preceding year, it has been felt that it would be an advantage if it were available a few days before the Budget is actually presented to Parliament. Accordingly, it is being presented and published a little before the Budget day.

2. The report is in two parts. Part I contains a general review of developments in the preceding year as well as an assessment of future trends. Part II is a more detailed analysis of developments in different sectors of the economy.
