P Provisional.

* Revised in line with the new accounting standards and consistent with the methodology suggested by the Working Group on Money Supply : Analytics and Methodology of Compilation (June 1998) from 1998-99 onwards. The revision is in respect of pension and provident funds with commercial banks which are classified as other demand and time liabilities and includes those banks which have reported such changes so far. Footnote 3 to Table 4.1 applies to this Table also.

Note: Due to change in bank accounting year from calender to financial in 1988-89, there were sharp and unusual increases in aggregate deposits and credit towards the end of financial years 1988-89 and 1989-90 followed by a large decline in them in the first week of next financial year.
