TAX PROPOSALS

Tax reform, like all reforms, is a process and not an event. Thrust of reforms has been to improve the efficiency and equity of our tax system. This is sought to be achieved by eliminating distortions in the tax structure, introducing moderate levels of taxation and expanding the base and accompanied by requisite re-engineering of key business processes coupled with automation.

Recent initiative, on direct taxes side, of the setting up of a Centralized Processing Centre (CPC) at Bengaluru where all electronically filed returns, and paper returns filed in entire Karnataka, will be processed.

Centre’s Tax-GDP ratio has increased to 11.5 per cent in 2008-09 from a low of 9.2 per cent in 2003-04. Share of direct taxes in the Centre’s tax revenues has increased to 56 percent in 2008-09 from 41 percent in 2003-04, reflecting sharp improvement in equity of our tax system.

Structural changes in direct taxes to be pursued by releasing the new Direct Taxes Code within the next 45 days and in indirect taxes by accelerating the process for the smooth introduction of the Goods and Services Tax (GST) with effect from 1st April, 2010.

The Direct Taxes Code, along with a Discussion Paper, to be released to the public for debate. The Direct Taxes Code Bill will be finalised for introduction in Lok Sabha sometime during the Winter Session based on the inputs received.

The Authorities for Advance Rulings on Direct and Indirect Taxes to be merged by amending the relevant Acts.

Agreement has been reached on the basic structure of GST in keeping with the principles of fiscal federalism enshrined in the Constitution. Broad contour of the GST Model envisages dual GST comprising of a Central GST and a State GST. The Centre and the States will each legislate, levy and administer the Central GST and State GST, respectively.
