'@ Gross Capital Formation (GCF) is estimated by two approaches: – (i) through flow of funds, derived as Gross Saving plus net capital flow from Rest of the World (RoW) (Coulmn 17 of above table); and (ii) by the commodity flow approach, derived by the type of assets (Coulmn 15 of above table).

Errors and ommissions as indicated in Column 16th is not published in the National Accounts Statistics. The difference of GCF compiled by using above two approaches has been reflected as Error and Ommissions in Column 16 as already indicated by DEA for previous years.

The per capita net availability of food grains is now calculated on Financial Year basis and is not comparable with the old series which was based on calendar year.

The net availability of foodgrains is estimated to be Gross Production (-) seed, feed & wastage, (-) exports (+) imports, (-) change in stocks.

The net availability of foodgrains divided by the population estimates for a particular year indicate per capita availability of foodgrains in terms of kg/year. Net availability, thus worked out is further divided by the number of days in a year i.e., 365 days which is taken as net availability of foodgrains in terms of grams/day.

Projected Total Population by Sex as on 1st July - 2011 - 2036 : India, States and Union Territories* ('000), Report of the technical group on population projecti on July, 2020

Figures in respect of per capita net availability given above are not strictly representative of actual level of consumption in the country especially as they do not take in to account any change in stocks in possession of traders, producers and consumers.

- 1. For calculation of per capita net availability, the figure of net imports from 1981 to 1994 are based on imports and exports on Government of India account only.
 - Net import from 1995 are, however, based on the total exports and imports (both Government as well as Private accounts).
- 2. Net Imports are total Imports minus Exports of the Country.

1. Dividend Payment has been done away with as per Budget merger conditions and hence no dividend payment from 2016-17. 2. * Upto 2017-18, row 6(i) depicts capital at charge. Notes:-

* Upto 2017-18, row 6(i) depicts capital at charge.

* From Part-I of Appropriation A/C Book

In 2019-20, lesser appropriation to Pension Fund vis-à-vis Pension expenditure of Rs. 49188 cr led to adverse balance of Rs. 28398 cr in Public Account. In 2020-21 also, Railways witnessed a resource gap (assessed at about Rs 51,000 crore at RE stage) due to adverse impact of Covid19 pandemic on railway traffic leading to nominal appropriation to Pension fund. The gap for both these years was offset through a special Covid loan from the Government. In 2021-22 also, due to the continuing continuing adverse impact of Covid 19, the Government allowed expenditure in excess of Railway receipts.

Source: Reserve Bank of India. ---: Nil or Negligible,

P: Preliminary a: Commercial borrowings includes short term credit.

Notes: 1. Grants received are covered under item 4(a).

- 2. Estimated interest accrued and credited to NRI deposits during the year has been treated as notional outflow under invisible payments and added as reinvestment in NRI deposits under banking capital.
- 3. In accordance with the provision of IMF's Balance of Payments Manual (5th Edition), gold purchased from the Government of India by the RBI has been excluded from the BOP statistics. Data for the earlier years has, therefore, been amended by making suitable adjustments in "Other Capital-Receipts and Foreign Exchange Reserves". Similarly, item "SDR Allocation" has been deleted from the table.
- 4. With effect from 1996-97, private transfer receipts include redemption in rupees of both principal and interest under Non-Resident External (Rupee) Account [NRE(R)A] and Non-Resident Non-Repatriable Rupee Deposit [NR(NR)RD] schemes. This marks an improvement in data reporting.
- 5. Totals may not tally due to rounding off.
